

TECHNOLOGY TOOLS TO DELIVER MAXIMUM VALUE

Intranet Portal
Accessing and Sharing Best Practices

Whelan utilizes carefully selected technology and strategic alliances to support our operational processes. It is our goal through these processes and tools to manage your security contract professionally and efficiently. The end result is congruent with our mission statement – “To Deliver Maximum Value to Our Customers.”

[Intranet Portal] The intranet portal is an easily accessible, online tool that allows our managers to access and share information and best practice ideas across the company.

[e-Hub Client and Employee Portal] This portal provides an automated mechanism by which all of our employees and clients can obtain information in a timely and efficient manner.

[Talent Management System] Recruiting, applicant tracking, assessment, pre-employment background screening, and on-boarding are processed through our automated Talent Management System.

[Learning Management System] This system is tied to our Online Learning Center and our T.A.P.S. computerized scheduling system to automate and track the training progression of every Whelan employee.

[T.A.P.S.™ Automated Payroll, Billing and Scheduling System] This automated system integrates scheduling, payroll and client billing and ensures that proper shift scheduling will drive correct payroll, which in turn will drive correct billing.

[PostAlert™ Post Confirmation System] PostAlert™ is an automated, interactive telemonitoring system that ensures officer safety and consistent post coverage.

[WhelanVIEW Technology] Through our Strategic Technology Alliances, Whelan can deploy a myriad of technology tools to our security officers and security managers on the same robust and virtual WhelanVIEW platform.

- ▶ V-Post Online Incident and Events Reporting
- ▶ V-Tour Patrol Verification System
- ▶ V-Tracker Portable Incident, Tour and Inspection System
- ▶ V-Inspector Handheld Field Inspection and Quality Assurance Device
- ▶ V-Logistics Handheld Logistics and Inspection System
